

2022 Nucs and Packages Suppliers

Only a fraction of bee suppliers west of the Cascades in Washington is listed here. The purpose of this list is to give beekeepers just a taste of how many possibilities there are. Often we are not aware of what is available in our locale.

This is only an aid to beekeepers researching bees available Spring 2022. No recommendation or referral is made or intended. SnoKing receives no monies or income for placing bee suppliers on this list.

Please do not rely on the information given below; verify and confirm everything. Prices, availability, pickup times and points are usually subject to change, particularly due to weather at point of origin or pickup. Almost all nucs/packages arrive April to May. Most nucs are 5 frames deep; most packages are 3 lbs, but always ask.

Please read all information available on websites and do your research for each supplier even before calling them. Remember: "If you ask a better question, you get a better answer."

Survivor stock nuc:

5 frame nuc:

A true nuc: includes a young queen, that has gone thru two brood cycles with expert assessment and grading of her brood pattern before choosing her for sale. The nuc has workers and drones born from the queen mother in your colony. The workers and drones are already familiar with her, so there is no acclimation necessary for acceptance of the queen. Because your nuc is a mini-hive (a small version of a fully established hive), the queen will still continue laying eggs while the nuc is in transit. The workers in your nuc are in all stages of development, from nurse bees, guard bees, foragers and everything in between. A nuc colony can start foraging almost immediately, after transferring them to a regular size brood box in your apiary.

Olympic Wilderness Apiary

Dan & Judy Harvey

46492 Hwy 112, Port Angeles, WA 98363

Local Pacific Northwest bred wild survivor

Disease resistant & mite tolerant: Caucasian- VSH -Russian – feral hybrids

Since 1997 we have conducted accelerated natural selection from feral colonies captured in the remote Olympic Peninsula rainforests. Our chemical and antibiotic-free stock demonstrates sustainability against many of the pathogens threatening honeybees today. This year we are offering Complete Colonies; and Overwintered BREEDER Queens.

Poulsbo Feed and Grain

360-509-0595

[971 NE Paulson Rd Poulsbo, WA 98370](https://www.poulsbofeed.com/)

offered package bees from Olivarez Honey Bees in April 2021.

Not yet verified if they will offer them this year

It may be worth checking with your local feed store if you are in a more rural area.

We are a veteran owned and operated business. We offer NUCs currently on sale for \$165 until December 1st, after that they will be \$180. Beginning 1 January 2022 we will be carrying a line of bee keeping equipment ranging from wooden ware to home extraction from Mellivo. Our bees are Carniolan bees from Bee Kingdom sourced from Germany stocked queens. We offer 10% discount for all military and first responders.

Whatcom Bee Company

Michael Jaross

<http://whatcombeehelp.com/>

<http://whatcombeehelp.com/contactmichael/>

2022 Nucs: 5 & 10 frame true nucleus hives featuring queens from my 12-year long selection process for suitability in Whatcom County conditions.

My five-frame nucs consist of one frame of capped honey, one rich in pollen, an empty drawn brood comb for the queen to expand into, a frame of capped brood and a frame of mostly open brood. Ten-frame nucs simply offer more of the same; i.e. a longer head-start on the season. There are usually more 10-framers than 5s.

Queen Option: New 2022 Queen or proven 2021 Queen.

Woods Bee Co

Alan Woods

(360) 623-3359

bees@woodsbeeco.com

<https://woodsbeeco.com>

919 W. Reynolds Ave., Centralia WA 98531

MWF 12 - 5pm

Beekeeping supplies and equipment.

Our 2022 NUC price is \$175.00 per NUC this includes a \$10 refund if the NUC box is returned. We are offering an additional \$5.00 off for all WASBA and Local association members and orders of \$5.00 or more NUCs.

We are also offering a limited number of 10 frame NUC for \$225.

Nucs can be ordered online at

<https://woodsbeeco.com/product-category/bees/nucs/>

We are not selling packages this year.

We will have early queens – price to be determined.
